

Linc Government Services

PROVIDING GLOBAL
EXPEDITIONARY SUPPORT

From

health facility services

to

**base operations,
facility management
and training**

and everything in between,

we know how critical it is

for mission support services to be

**innovative,
reliable and
cost-effective.**

A **global provider** of
integrated facility management services,
military base operations and
management, training
and other government contracting services.

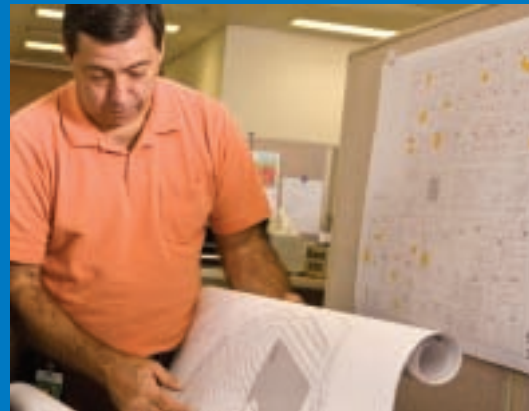

Since 1979, Linc has been a global provider of integrated facility management services, military base operations and management, training, inland waterways, and other government contracting services. Linc Government Services specializes in a wide variety of mission support services including base operations, construction, facility services and subject matter expert staffing services for the Department of Defense and other federal and state agencies.

With more than 30 years of experience managing complex projects in very challenging environments, Linc's innovative, full complement of services are reliable, results-oriented and cost-effective.

Mission Essential Support Services

Precision is the Only Option.

At Linc, we understand the critical role that maintenance management plays in supporting the overall services of military and governmental agencies. Whether it's fleet management and facility maintenance or combat leadership workshops and linguistic expertise, Linc provides a wide range of mission essential support services.

Performance Delivered Consistently

Drawing upon years of experience, Linc delivers performance-based services on time and on budget. We understand the unique needs and challenges of governmental agencies, including the military.

Why Linc Government Services?

Consider the benefits we provide our clients:

- Design and execution of best-in-class solutions
- Realized cost savings across all levels of the organization
- Utilization of the most advanced technology
- Fulfillment of assignment with complete customer satisfaction
